Money secured for 4-lane from Dresden to Coshocton

Staff Reports

T.J. Justice, executive director of the Coshocton Port Authority and co-chairman of the Columbus to Pittsburgh Corridor Committee, reported Rep. Zack Space, D-Dover, secured \$400,000 toward the \$5.2 million needed for environment and design work to make the 9-mile stretch from Dresden to Coshocton a four-lane highway.

The appropriation still needs the approval of the U.S. Senate and the president's signature. If total funding were available today, construction would not begin until 2013, at the earliest. Justice said.
